

CIB Genomics Core Lab DNA Sequencing Off-Campus Price List Large Volume Discount/Monthly Usage

Services for Sequencing are performed using an ABI prism 3730 DNA Analyzer and Taq FS Terminator Chemistry (BigDye and ET Terminators and others Chemistry). Standard primers are provided by the facility at no extra charge. Custom primers should be provided by the user. The turnaround time for receiving sequencing results depends on the volume of sequencing requests to be processed. The standard turnaround, during a 5-day work week, is 24 to 48 hrs. after receipt of a DNA template. When the number of requests for sequencing exceeds the daily capacity of the lab, the turnaround time increases, generally to no more than 48 hrs.

Total Number of Reactions Per Month	Pricing Per Reaction
1-5	\$18.25
6-19	\$16.00
20-29	\$14.00
30-39	\$12.00
40-49	\$11.00
50-99	\$10.50
100 or more	\$10.00

The genomics core lab at Utah State University also provides other services in addition to sequencing including genotyping and Affy gene expression system. For more information on our services, please call us at 435-760-3688 or visit our web site at http://www.biosystems.usu.edu/core_labs/genomics/
