

<u>Date/Time</u>	<u>Presenter/Title</u>	<u>Affiliation</u>	<u>Title</u>	<u>Location</u>
August 29, 2007 3:30-4:30	Dr. Tanya Ditschun	Senomyx Inc., San Diego, CA	Using Taste Receptors to Discover New Flavor Ingredients	LIB 154
September 5, 2007 3:30-4:30	Student Day	Dr. Robert Ward Nutrition and Food Sciences Utah State University		
September 12, 2007 3:30-4:30	Dr. Jeff Broadbent Associate V.P. for Research	Utah State University Nutrition and Food Sciences Dept.	Application of Microbial Genomics in Cheese Flavor Research	LIB 154
September 19, 2007 3:30-4:30	Dr. Gale Rudolph V.P. of Functional Foods	Dynamic Confections, Inc.	TBA (Omega 3 fatty acids and chocolate)	LIB 154
September 26, 2007 3:30-4:30	Dr. Conly Hansen Professor	Utah State University Nutrition and Food Sciences Dept.	Producing Methane, Hydrogen, and Other Useful Chemicals Using Agricultural Production or Processing Byproducts	LIB 154
October 3, 2007 3:30-4:30	Dr. Jerry Kaplan Professor, Cell Biology and Immunology	University of Utah Health Sciences Center, Department of Pathology	Regulation and Malregulation of Mammalian Iron Metabolism	LIB 154
October 10, 2007 3:30-4:30	Dr. Michael R. Stark Dept. of Physiology & Developmental Biology	Brigham Young University	Becoming a Neuron: Cell Fate Determination in Early Vertebrate Nervous System Development	LIB 154
October 17, 2007 3:30-4:30	Dr. Mike Lefevre	Utah State University Nutrition and Food Sciences Department	In Vivo and In Vitro Metabolic Effects of Anthocyanin-rich Grape Skin Extracts	LIB 154
October 24, 2007 3:30-4:30	Dr. Wayne Askew, Professor and Director	Division of Nutrition University of Utah	Bison, A Heart Healthy Red Meat?	LIB 154
October 31, 2007 3:30-4:30	Dr. Liz Fritz		TBA	LIB 154
November 7, 2007 3:30-4:30	Dr. John Newman Research Chemist	USDA Western Nutrition Research Center, Davis, CA	TBA	LIB 154
November 14, 2007 3:30-4:30	Dr. Ilka Nemere Professor	Utah State University Nutrition and Food Sciences Dept.	Emerging Concepts for the Mechanisms of 1,25 (OH)2D3 Action	LIB 154
November 28, 2007 3:30-4:30	Dr. Daryll DeWald Professor and Head	Utah State University Dept. of Biology	Metastasis Suppressor Genes: Learning How They Work	LIB 154
December 5, 2007 3:30-4:30	Dr. Monique Rijnkels, Assistant Professor	Department of Pediatrics Baylor College of Medicine	Bovine Genome Annotation	LIB 154
